Vacancy

The Institut Laue-Langevin (ILL), situated in Grenoble, France, is Europe's leading research facility for scientific research using neutrons. Every year, we host over 2000 visits by scientists, who come to the Institute to carry out world-class research. Are you interested in taking up a new challenge in our international institute? Then come and join our Development group, which is part of ILL's IT Service. The members of the Development team are responsible for the development and maintenance of applications, and the design and implementation of technical solutions to support the Institute's scientific research activities.

Full Stack Developer

Yours Tasks

Reporting directly to the Head of the Development group, you will be responsible for the following tasks:

- Designing and developing software applications/tools within a Java environment.
- Managing software development tools (such as GitLab, automated deployment, CI/CD) and implementing authentication protocols (OpenID Connect, SAML, etc.), integrating DevOps principles.
- Effectively communicating and giving presentations on technical subjects.
- Keeping up to date with development trends.

Qualifications / Experience:

- You are a proactive and innovative individual with a strong passion for coding and a continuous drive for learning; you enjoy regularly introducing new technologies to your team.
- You have a level 5 to level 6 qualification (Higher National Diploma (HND), Bachelor's degree or equivalent) in computer science or a relevant professional background.
- Demonstrated extensive experience in Java, NodeJS and Angular development, applying DevOps methodologies.
- Active engagement on GitHub, GitLab or Bitbucket with contributions to collaborative or personal projects.
- Proficiency in written and spoken English.
- Firm commitment to user satisfaction and product quality.
- Experience with microservices is highly valued.

We offer:

- ✓ **Quality of life** A hub for research and technology, the city of Grenoble is ideally located in the heart of the French Alps (just 3 hours from Paris/Provence by train, 1 hour from Lyon international airport and 1 ½ hours from Geneva). It is important for us that our staff achieve a healthy work-life balance. We therefore offer home working (under certain conditions), generous annual paid leave entitlement and a host of other benefits that you will discover when you arrive!
- ✓ **Prospects** We guarantee you a **permanent position** a multicultural scientific environment.
- ✓ **Benefits** - We offer generous social benefits (expatriation allowance, excellent health cover), moving and relocation assistance (under certain conditions) and an annual productivity bonus. We also offer language courses for you and your partner and subsidies for the use of public transport and the staff canteen, as well as for holidays and a variety of cultural and sports activities.

How to apply:
